

/ AGRICULTURE / VETERINARY / FOOD INDUSTRY / HEALTHCARE AND COSMETIC INDUSTRY

The basic and economic version of the mat. Perfect for agriculture. Very effective and simple to use, fitted with a special absorbent cartridge resistant to damage. Disinfectant is maintained inside the mat, and is visible only under pressure of shoes. The mat can be used indoors and outdoors (eg in corridors, entrances). Resistant to chemicals and weathering. Zip fastener-to quick opening, drained grid, absorptive insert, strong material. Available colors: deep green.(other colors on request). Grid in black.

Technical Specifications:

1. Net

- type of coating – PVC
- weight – 265 g /m²
- tear strength warp/weft - 350 / 330 N
- tensile strength warp/weft – 1800 / 1700 N / 50 mm
- resistance to temperature - - 40°C / + 70°C
- translucence – 45 %

2. Absorbent core - polyurethane foam

3. Green canvas

- type of coating – PVC
- weight – 620 g /m²
- tear strength warp/weft - 300 / 300 N
- tensile strength warp/weft - 3000 / 3000 N / 50 mm
- resistance to temperature - - 40°C / + 70'
